

Anglo American Educational Services

Academic Programs

The Anglo American team works closely with partner institutions to develop customized programs in order to meet their needs and objectives. The staff also has over 30 years of experience in Education Abroad with a strong background in curriculum development. Support is available both to universities that have their own semester programs, and to those needing assistance with total curricular offerings taught by qualified British instructors. To complement classroom instruction Anglo American makes arrangements for field trips and lectures by academicians, business leaders and professional practitioners in all major fields.

The Anglo American offices and Study Centre are situated in a listed building in beautiful Bloomsbury, the heart of London's cultural and educational area. The building, located in historic Bloomsbury Square, is only a few minutes walk from the British Museum, British Library and University of London. The Centre is home to Anglo American's course programming in London.

In the listing which follows, you will find a sample of courses on offer at the Centre in the fall and spring semesters of the 2008-09 academic year. In addition, we have a summer session in which a number of these courses are also offered.

[NOTE: For information on our internship placement service, which is operated in conjunction with the course programme, please consult the section: *Internships*]
